

Graduation

Dr. Suzuki has had a graduation system in Japan for many years. The purpose of Graduation is: to continue to raise standards for students and teachers, to provide incentive for polish and review of literature, and to provide a means of recognition for students who have achieved certain goals. All students who fulfill the requirements are welcome to submit a graduation recording: 1. Students must be studying with and be recommended by a teacher who is an active member of the Suzuki Association of the Americas. 2. Students should make a recording

with accompaniment of the piece(s) appropriate to his/her current level of study (see grid). Students who have not participated in graduation before and who are qualified to enter at an upper level should send a recording of the appropriate level and all prior levels. 3. Separate recordings should be sent for each applicant and for each instrument. 4. Print the following information on each recording: Name, Level(s), Name of Piece(s), Instrument, Teacher, and City. 5. Send the recording, the application, and the fee by **May 1**.
